MEMORANDUM FOR: Colonel White

30 November 1953

SUBJECT : Travel of Personnel

25X1A9a 1. I believe some of [REDACTED] points are well taken here, although I believe he is somewhat an alarmist about the situation. In paragraph 10. 25X1A9a [REDACTED] recommends that the Personnel Office be assigned primary responsibility for review and supervision of all travel. I believe that the DD/A is not in a position to act on such a recommendation at this time. In lieu of such action I would suggest that the Personnel Office be requested to take the lead and prepare a brief statement of the problem in conjunction with the Logistics Office and the Comptroller, winding up with a recommendation as to who should have this primary responsibility, if any one Office should have it, and indicating further what changes would be required to put such a policy into effect.

2. This might well be a situation where [REDACTED] or someone in this Office should sit down with the heads of the three Offices concerned in order to get moving on this.
